**I. Прочитайте текст и выберите правильный ответ:**

Christopher Columbus was born in Italy in 1451 but he lived in Spain. Columbus loved the sea. He became a sailor when he was fifteen years old. Then he made many voyages. After many years and many travels, Columbus became an excellent sea captain. He had many maps that showed that the earth was round. The maps showed that it was possible to sail west to get to the East. The city of Palos gave Columbus three ships: the Nina, the Pinta, and the Santa Maria. Queen Isabella gave Columbus money and ninety sailors. After four weeks sailing in the ocean, on the 12<sup>th</sup> of October, they reached a land. People on the new land thought the ships and the men had sailed down from the sky. They brought the sailors presents, food, and parrots. Columbus and his men gave them presents too. Columbus thought that he was in the Indies. And he called the people Indians. When the ships came back to Spain, the people in Spain were happy. They called the new land “the New World”. Americans remember Columbus in many ways. There is a famous statue of Columbus at Columbus Circle in New York. On the 12<sup>th</sup> of October Americans celebrate Columbus Day with parades, parties, and good time.
